PROFILE INFO

I am a Frontend Developer with 6 years of experience, eager to apply my skills in a dynamic environment that values innovation and growth. I'm seeking a career opportunity where I can contribute to creating engaging user interfaces while continuing to develop professionally. I look forward to adding value to exciting and challenging projects.

EXPERIENCE

2021 - PRESENT

To The New PVT. LTD,

Senior Front-End Developer

- I have worked on diverse projects, including Tata Play, Bharti AXA Life Insurance, the Nasco Insurance Portal, an OTT web application, the Avex Channel Grievance Portal, and AMC Studio.
- I developed and implemented user-friendly web applications using React.js and other technologies, alignment with project goals and client requirements.
- Collaborated with cross-functional teams to ensure seamless integration of frontend components with backend systems.
- Optimized the user experience by creating responsive and accessible interfaces across various devices and browsers.
- Actively participated in code reviews, ensuring quality and consistency across the development process
- I have taken ownership of client-side requirements and have also led several projects, driving them to successful completion.

2018 - 2021

EDUCO INTERNATIONAL INDIA PVT. LTD

Software Engineer

- Responsible for developing computer based training programs
- Developed e-courses, e-quizzes and various other e-solutions
- Usage of animations and graphics in the learning content for better understanding of the user
- Created dynamic test materials and other e-learning contents for mathematics
